Yield: a practical guide to teaching poetry writing

John Malone, 50pp.

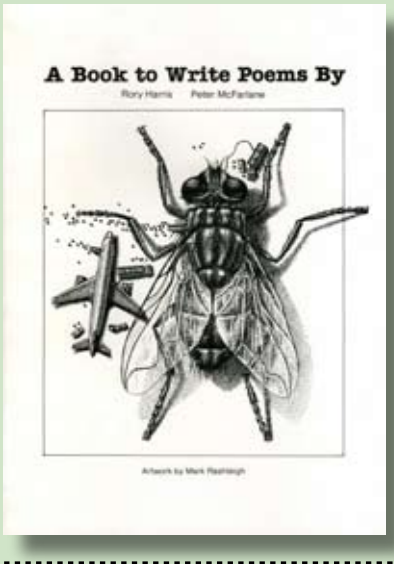
This, the first in AATE's new *Top Drawer* series, is designed to be a practical text suitable for use in the classroom.

Writing poetry is a great way for students to develop writing skills. This book is designed to get students writing poetry. John provides ideas to kick-start students thinking, a few hints about how to go about developing the poem on the page, and some models showing how he goes about his own poems. The emphasis is not on technical writing skills, but on enjoying poetry and getting the imagination flowing.

Limited stock, don't miss out!

A Book to Write Poems By

Rory Harris & Peter McFarlane, 102pp.



A Book to Write Poems By is a cookbook with twenty-six 'tried and true' recipes for the making of poems, together with comments on 'cooking' by the two cooks. The recipes, like all good ones, are simple; and as recipes, must work.

Poetry has no age restriction. Some of these poems and methodologies are more appropriate to certain age groups than to others, but all of these sections can be used by all age groups. This is a great book to get your students writing and enjoying poetry.
